

Relocation

solutions

BEFORE YOU PLAN YOUR NEXT OFFICE RELOCATION - TALK TO US

Business

 **INFASSURE**

Network design

innovative

WITH OUR INNOVATIVE SOLUTIONS WE ARE ABLE TO DESIGN, IMPLEMENT & RELOCATE BUSINESSES OF ANY SIZE

Business communications and technology design is a crucial part of any relocation, whether you have two servers or a full data center; five phones or hundreds; offices or cubes. There are many things to take into consideration such as electrical load, cooling and power backup; VOIP options, sound masking, A/V, PA, access control and possibly surveillance needs. Our business C&T design engineers can help you come up with a design that fits your budget and addresses future growth as well as existing needs.

IT Relocation checklist

comprehensive

WITH A COMPREHENSIVE RELOCATION CHECKLIST AND IMPLEMENTATION PLAN YOU CAN ACHIEVE A TRULY SEAMLESS MOVE

Sometimes what appears to be an overlooked, seemingly inconsequential item becomes a nightmare. A thorough and detailed implementation plan will ensure a successful relocation. Our plan includes checklist templates developed over many years of experience with our clients' relocations. Let our relocation consultants help you with your needs and documentation requirements.

“WITH INFASSURE’S IT RELOCATION PRACTICE WE WERE ABLE TO MOVE OUR BUSINESS WITH LITTLE OR NO IMPACT TO OUR CUSTOMERS.”

Homeland Healthcare

Infrastructure changes

proactive

THE KEY TO A SUCCESSFUL MOVE IS TO BE PROACTIVE AND ASSESS CURRENT INFRASTRUCTURE AND THEN ADAPT ACCORDINGLY

Chances are you are relocating because your business is either growing or downsizing. In either case, now is the optimal time to review your current communications and infrastructure requirements. Infassure works with companies undergoing the stressful process of relocation and develops custom solutions to fit each company's unique requirements.
